## ENGINEER INJURED

### IN CUSHING BROS. FACTORY.

Thomas Rattray struck by the Governors of the Engine and thrown into the driving belt.

Thomas Rattray, engineer in Cushing Bros. sash and door factory here, was severely injured this morning and taken to the public hospital for treatment.

The injured man was alone in the engine room when the accident occurred. The manner in which he sustained the injuries can be gathered only from his appearance and the circumstances. It is believed that while working around the engine he was struck on the head by one of the governors and knocked into the large driving belt, on which he was whirled along in a moment a distance of about ten feet, where he collided with the end of a scantling which projected over the belt. This threw him from the belt to the floor where he was found a few minutes afterward and taken to the public hospital for treatment.

Here the injuries were examined. The bruise on the head is not considered serious, the greatest damage having been done by the scantling. This struck him in the left side just below the arm, broke two ribs, misshaped the breast bone and lacerated the muscles badly. Though Mr. Rattray is well up in years and has not been well of late, it is believed he will recover within a reasonable time.

And he not been stopped by the scantling, he would in all probability have been crushed in a moment between the belt and the large pulley on which it runs.

## RUSSIAN SQUADRON

### REMAINS AT KAMRANH BAY.

The Russian Admiral Reported to be using a French Fort as a Naval Base. British Public grows anxious.

#### Monday's Daily.

Tokio April 20.—The Russian Second Pacific Squadron continues the occupation of Kamranh Bay, where it is expected to remain until joined by the third Russian Pacific Squadron. The report that Admiral Rozhkovsky is maintaining a patrol and examining neutral shipping off Kamranh Bay increases the irritation toward France for permitting the use of that port as a base of operations. The Japanese Government continues silent regarding representations on the subject which have been made to France. The French continues, however, its agitation against France and demanding vigorous action.

#### SHOWING ANXIOUS.

London, April 20.—The British public is beginning to realize how keen depends on Admiral Togo's skilful conduct of the approaching naval contest. Until Admiral Rozhkovsky actually arrived in the Straits of Malacca there was a disposition to ridicule the efforts of the Russian Squadron, but now that there is seen to be a growing likelihood of Vice Admiral Nebogatof joining Rozhkovsky before the struggle opens, the interest is deepening into anxiety.

## NO OPPOSITION

### WILL BE OFFERED MR. OLIVER

Conservatives in District Convention decide to not place a Candidate in the field.

The local Conservatives held a convention in the Sandison block yesterday to discuss the local political situation. Representative party men were present from many parts of the district. After a short discussion, a resolution was carried, it is understood unanimously, that no opposition be offered Mr. Oliver at the coming election.

This course has appeared probable since the announcement of Mr. Oliver's appointment. Prominent local members of the party have frequently and freely expressed their intention of supporting Mr. Oliver regardless of the wishes of the eastern managers, while in some districts addresses assuring him of support have been signed by former leading opponents.

## PUBLIC MEETING.

Hon. F. Oliver, Minister of the Interior will address a public meeting in the Thistle rink on Monday evening next beginning at eight o'clock.

## OLD WOMAN MURDERED

### BEATEN TO DEATH WITH A CLUB

Tramp enters a House in St. Thomas, Murders an Inmate, and Robs the Premises.

#### Bulletin Special.

St. Thomas, April 20.—An atrocious murder was committed here by a tramp, the scene of the crime being a house where two old women live. They were alone yesterday when the tramp called. Miss Lowery, one of the women, answered the door and was beaten to death by a club. The other old woman is a confirmed invalid and on the brute's entry into the house, showed him where the money was and he left without injuring the invalid.

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

THE NEWS DOES NOT ADMIRE  
MR. OLIVER OR EDMONTON.

The Bulletin has great pleasure in reproducing the following advertisement: "The News—J. S. Willison, managing editor. An Independent Journal devoted to Politics, Education, Literature, the Presentation of Current News, and the diffusion of Useful Information."

The News carries over its editorial heading the following advertisement: "The News—J. S. Willison, managing editor. An Independent Journal devoted to Politics, Education, Literature, the Presentation of Current News, and the diffusion of Useful Information."

Puzzle—Find in the article Quoted Independence, Politics, Education, Literature, News, Useful Information, or anything but the cry of rage and despair of a disappointed Thug. Electors of Edmonton are especially commended to a consideration of the lofty indifference which the News expresses towards their opinions and to the insults to them which it conveys.

It is a far step down from Clifford Sifton to Frank Oliver. It will hardly be pretended that Oliver was the first choice of the Government for Minister of the Interior, and the fact of his appointment to the Cabinet is a confession of fear that was not generally expected. Even the Opposition in the Commons has been forced to admit that strength, foresight, and resource have distinguished Mr. Sifton's conduct of a heavy department and that he has revealed practical capacity and constructive power in relation to many broad questions of public policy. But there is no more shifty, shuffling and demagogic politician in the House of Commons than Oliver. He is a professional assailant of railway corporations and railway subsidies, except such as serve his political interests and the interests of his district. He is a roaring radical providing considerations which are nearer and dearer to the furious patriot do not intervene to check his "noble frenzy." He was like Sifton a fierce opponent of the coercion of Manitoba, when he was seeking a seat in parliament, and his party the seals of office, and, like Sifton, he has sacrificed his principles on the altar of party and crept into the tattered uniform which he helped to tear from Tupper's shoulders nine years ago. There is, at least, this to be said for Sifton: he had not the face to continue drawing the salary which now goes into Oliver's pockets. For his treason Sifton sacrificed something; Oliver makes; and no doubt has a fine contempt for the scruples of the man to whose position and emoluments he has succeeded.

Why is Mr. Oliver now selected for preferment? It is no secret that Mr. Scott expected to succeed Mr. Sifton and that his expectation was not unwarranted. It is just as true that he has greater qualifications for the office than Mr. Oliver or any other of the Western Liberal contingent in the Commons, with the possible exception of Mr. Greenway. Nor will it be suggested that he has failed in his service or in his loyalty, questioned or resisted the demands of the coercionist wing of the Cabinet, or held any consideration to be secondary to the retention of power in the hands of Liberal politicians. But notwithstanding all these merits and notwithstanding that he carried his constituency a few months ago by nearly 800 of a majority, he is set aside and Mr. Oliver is called to the Cabinet. There can be only one reason for this unexpected proceeding, and that is that strong as he was in his constituency, and great as was his majority at the general election, the Government dare not risk a contest in West Assiniboia. We confess that we were not prepared for such a confession of fear and distrust of Western Liberals, and the facts have a curious significance in view of the contention of Ministers and their supporters and echoes in the press and in Parliament that the Autonomy Bill is acceptable to Western Canada and that the agitation which the measure has evoked has no existence outside of Ontario.

Mr. Oliver, therefore, is selected for the office of Minister of the Interior, and he will seek re-election in a constituency which gave over two thousand of Liberal majority last November, and where the Government, under the circumstances of the moment, has greater sources of strength, and probably more power over the people, than in any other constituency. It is estimated that there are at least five or six hundred French voters in the division, and from five hundred to two thousand French Canadian voters, many of whom belong to the Greek Church and are naturally subject to ecclesiastical influence. Moreover, the officials of the Government have very intimate relations with the foreign voters. They are encouraged to depend upon the Government, and in the general election under the pres-

#### ELECTION ADDRESS.

TO THE ELECTORS OF EDMONTON.

Gentlemen:

Having been offered the position of Minister of the Interior it becomes necessary to secure the endorsement of the electors of the Edmonton electoral district to my acceptance of the position. The election day is fixed for Tuesday, May 2nd. I shall use every endeavor to meet as many of the electors as possible between now and that date. But as I cannot meet them all, I take the opportunity to lay before them some of the grounds upon which I confidently ask their active support at the polls.

The administration of the Department of the Interior has more to do with the successful development of the as yet unoccupied territory of the North West than has that of any other department of the Government. Upon the successful development of that territory, the success of the already occupied territory, including towns and cities, depends. The administration of the Interior Department under the Hon. Clifford Sifton has given the possibilities of our country and has resulted in remarkable and substantial progress in which every part of the North West has shared. It is especially important at the present time to the Edmonton district that the administration of the Interior Department should keep in view the further agricultural development of unoccupied territory, of which such a large proportion lies in the further North West of the Peace River country, and as well pursue a policy in regard to the settled and partially settled areas, that shall tend to the contentment and success of the people already established in the country. The contented settler is the successful settler, and the successful settler is the best citizen and the best immigration agent.

The bills establishing the new provinces in the Territories now before parliament properly claim a large share of public attention. I did not join in the demand for provincial autonomy, believing that we had more to gain than loss by waiting until our population had become larger and more thoroughly distributed, as a result of the completion of the great railway enterprises now in hand. But the large and annually increasing financial demands being made by the Territories upon the Dominion had reached a point beyond which further like increase could not be reasonably expected—in view of the subsidies received by the several provinces of the Dominion. It had therefore become necessary from the standpoint of both the Territories

and the Dominion that a permanent or provincial arrangement should be made—as much to relieve the Dominion from future demands of unknown amount, as to ensure to the Territories a revenue adequate for local requirements. The arrangement reached differs from that which any of the other provinces.

On an admittedly liberal estimate of population, the maximum debt allowance of \$1.50 per head, and the per head allowance of eighty cents is paid. The per head allowance follows the increase of population until 800,000 is reached in each of the new provinces, or a limit of twice as many as is allowed of any of the other provinces, except Ontario and Quebec.

The maximum legislative grant to the smaller provinces, \$50,000 a year is paid.

Five of the provinces own and control for revenue purposes their own land, timber and minerals. One has no land left to sell and receives a fixed annual cash grant because it has none. The other Manitoba receives a fixed annual cash grant because it has never received control of the land within its limits. The conditions prevailing in the Dominion and the Territories—relatively and respectively, render any of these arrangements unsuitable to the new provinces. In place of the land, or the land arrangements made with the other provinces, the new provinces receive a cash grant which increases with the increase of population to \$1,125,000 when the population has reached 1,200,000. This provision meets the needs of the new provinces, for increased funds, as population increases the need of expenditure, in a way and to a degree that the arrangements with any of the other provinces does not. It leaves the land to be administered in the interests of settlement instead of for revenue, and yet provides beyond the proportionate net receipts of any of the other provinces for the needs of the new provincial governments. In addition each province receives \$93,750 a year for the first five years as a special contribution towards provincial public buildings.

With the possibility of securing financial terms so much more favorable than those secured by the other provinces, I do not feel free to do else than accept autonomy on these terms. Provincial organization and responsibilities must have come some time, and probably soon. On a future occasion as good terms might not have been secured, and in any case an advantage of provincial organization is that by ensuring a fixed subsidy it renders provincial legislation and administration independent of changes of federal policy or administration.

The educational provisions of the autonomy bills are the occasion of a large measure of heated discussion at the present time. These provisions do not create—they merely

continue existing conditions in regard to minority schools. These conditions have prevailed in the Territories since 1892 without objection or protest from any source, and may therefore be considered to be satisfactory to the people concerned.

The federal parliament, in 1875, when it was not known whether the majority of the people of the Territories would be ultimately Protestant or Catholic, made provision by unanimous vote for minority schools. Parliament could have amended that provision at any time since 1875, and can yet do so—but no move has been made to secure the abolition of the minority rights therein provided for.

The constitution of Canada, which is the British North America Act of the Imperial parliament, passed in 1867, provides that minority rights existing in any province at confederation shall be continued. Exception has been taken to the provision of the autonomy bill continuing the minority rights now enjoyed as provided by the British North America Act. If the provision of the British North America Act is objectionable, it has been in order at any time during the past 38 years for the Canadian parliament to have amended that provision. But no move in that direction has ever been made. The direction has been to have maintained the existing law against which no one had objected since 1892, existing under a statute which had stood without objection since 1875. The bill has been brought down to the attention of the British North America Act, which has stood without objection since 1867. The government of the day which has presented the autonomy bill is not responsible for the British North America Act, for the Dominion legislation establishing the rights of minorities, or for the existing school system of the Territories, which it is proposed to continue. The government has no other interest in the matter than to give the people what they want. But as the constitution will permit, it was not until the bill had been brought down that any objection was heard from any source either to the ordinance, the statute or the constitution.

When the bills were presented objection was taken by the ex-Minister of the Interior and the liberal members representing Manitoba and the North-West to the expediency of the section regarding education, on the ground that it did not merely continue, but created a condition, inasmuch as it might be read to mean that Catholic minority schools might share in the Government grants without complying with the school ordinance or the rules and regulations of the education department. To secure his views on this point Hon. Mr. Sifton resigned from

the government. Following his resignation the section was amended so as to unquestionably continue the present system of absolute state control of all schools, whether majority or minority, whether Protestant or Catholic. As a member of the legislative assembly of 1892, which placed the schools of the Territories absolutely and directly under state control, and thereby enhanced the present standard of efficiency to be obtained, I felt bound to oppose any deviation from that principle such as might be supposed to be contained in the educational section of the autonomy bills as first passed. And when that objection had been definitely disposed of, I felt that I was not called upon to do other than support the continuation of the present law, which had been so generally satisfactory and had produced such satisfactory educational results.

The terms of the educational sections of the autonomy bills are not necessary to the application of the British North America Act in the continuation of existing educational rights. That application exists by paramount right of imperial legislation under the same section, which is provided for in other sections of the bill. The education clause is worded to state the view of parliament as to what educational rights are continued under the provisions of section 93 of the British North America Act. The purpose is to avoid the possibility of future remedial legislation under the same section, which might give a different interpretation to those rights; as was attempted by the Manitoba remedial bill of 1895. That bill attempted to take Roman Catholic schools out of the control of the state, and place them in the hands of a board controlled by the church. It might have been that even had the educational provision not been introduced in the autonomy bills, no such attempt would ever have been made, but in view of the events of such recent date, contentment with the Manitoba remedial bill it was evident that if the rights which were being continued were not defined, the result of which to our existing system of absolutely state-controlled education could not be foretold.

In conclusion I beg to say that, having had the honor of serving the people of Edmonton in a public capacity almost without interruption for twenty-two years, if I have rendered them some service during that time I may reasonably hope that having been called to a position of still higher responsibility, if endorsed on the present occasion by the electors I may be able to render them still greater service. Solidifying the vote of every elector on Tuesday, May 2nd, I am

FRANK OLIVER

## PILLS AND PILES.

A prolific cause of Piles is the use of cathartics and pills of a drastic nature, which is always followed by a reaction in account of the readiness, drying properties they contain.  
There are other causes, but no matter what the cause or what the kind of Piles, Dr. Leachman's Hemorrhoid can be relied upon to cure—to stay cured.  
It is an internal remedy that removes the cause of itching, bleeding, or suppurating Piles.  
A guarantee goes with each package containing a month's treatment. It can be obtained for \$1 at drug stores, or The Wilson-Pyle Co., Limited, Niagara Falls, Ont.

# THE NEWS DOES NOT ADMIRE MR. OLIVER OF EDMONTON.

Continued from page two

sure of the officials they voted solidly for Oliver. The new Minister has a certain local strength also, because he is a vigilant guardian of the local interests of his constituents and essentially a politician of the type which is represented by the battle cry of "Ayleworth and the canal." Besides, he is an object of local gratitude on account of the generous public aid voted to the Canadian Northern Railway, which is now nearing Edmonton, and still more is he credited with great service to his district in the agreement of the Grand Trunk Pacific to make Edmonton a divisional headquarters. And more powerful even than any of these considerations will be the desire that Edmonton shall be the capital of Alberta, the feeling that Mr. Oliver as a Minister will guarantee its selection beyond doubt, and the fear that the capital will go elsewhere in case of his defeat. Under all these circumstances it is vain to think that Mr. Oliver can be defeated, or even that his majority can be greatly reduced, as it will be an insult to the country to represent a victory gained under such conditions as a fair or decisive test of Western opinion.

In truth the appointment of Mr. Oliver to the Cabinet, and the appeal to Edmonton for a verdict on the Autonomy Bill is consistent with the whole course of the Government on this great national issue. In the general election the country was not permitted to consider the report that the Government was pledged to the Roman Catholic Hierarchy to impose a sectarian school system upon Western Canada. Journals which raised the question and demanded explanations from Ministers were de-

nounced as disturbers, bigots, and religious incendiaries. But with the election over, the Government, in contempt of the policy upon which it obtained office nine years ago, and in shameless violation of the traditions, principles and professions of the liberal party for a generation, launched the Autonomy Bill upon a startled country, and required the liberal party to sink its convictions, sacrifice its principles, and guarantee to an aggressive church a permanent ascendancy over a great empire of Western territory. The people are not permitted to pronounce judgment upon the policy, the liberal representatives in Parliament are commanded to obedience as the price of office, the country is deceived, betrayed and defied and the subservient but fearful supporters of an apostate programme encouraged to hope that four years hence the electors will have forgotten, and other questions will absorb attention. There is nothing more treacherous, vicious and discreditable in the history of Canadian politics and a verdict from Edmonton will not mislead the country, mitigate its wrath or reconcile protesting Liberals to the coercive, divisive and mediaeval policy which stands condemned by all the traditions and all the teachings of the historical liberal party of Canada.

—Lacombe Globe:—A quiet little wedding took place on the evening of 12th inst., at the home of Mr. James McVay, when Miss Mabel, the daughter of Mr. and Mrs. Thos. Hald, of Red Willow, and Mr. Chas. Cotton were united in the holy bonds of matrimony. After the ceremony the merry party repaired to the Victoria dining room to partake of a sumptuous repast, which was awaiting them. The happy couple left for Oacola, Nebraska, carrying with them the hearty good wishes of their numerous friends.

## NEW TRIAL ORDERED

IN CASE OF REE vs. KING.

Supreme Court quashes the Conviction of Charles King and orders a new trial.

Regina, April 19th.—The Supreme Court En Banc delivered judgement today on the reserved points of law in the King Murder trial. The alleged murderer will have another trial, the court being unanimously of the opinion that the conviction should be set aside and a new trial held. Judge Newlands delivered a judgement, in which he held as to the first point that there was evidence to show that the remains found were those of Hayward. That as to the second point, the Crown Prosecutor had the right to reply though the defence had adduced no evidence, but that the comment of the Prosecutor on accused's failure to testify was improper and entitled the prisoner to a new trial. Judge Prendergast delivered a separate judgement in which he arrived at the same conclusion. Judge Wetmore delivered a dissenting judgement in which he held that the conviction was bad as there was no evidence to show that the remains were Hayward's and also agreed that the Crown Prosecutor's comment entitled the accused to a new trial. He also held that the prosecution had no right to reply but thought it immaterial to the conviction.

King was tried before Judge Harvey in Edmonton early last month and at the conclusion of the trial which resulted in his conviction and the sentence of death to be executed on May 10th, the counsel of the defence, Mr. O. M. Elgar asked for a reserved case on three counts, 1st.—That the evidence was insufficient to convict; 2nd.—That the prosecution had addressed the jury after the address of counsel for the defence; 3rd.—That the counsel for the prosecution in his address had referred to the fact that the prisoner had not volunteered evidence on his own behalf.

Since his conviction King has been confined in the B.N.W.M.P. barracks at Fort Saskatchewan where he is said to have maintained a stoical silence regarding the crime with which he was charged. The new trial will be held in Edmonton, possibly during the coming month. There were about eighty witnesses present at the first trial, many of them from Lesser Slave Lake, some from British Columbia, the United States, Ontario and one from England. These witnesses will have to be brought back for the new trial.

## MADE BY HAND

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicuaragua district, in the Province of Santa Clara, is the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

My Pharaoh makes a mighty good smoke for the money.

## THE ISOLATION HOSPITAL

Following is the report of the city commissioners presented at Tuesday evening's council meeting regarding the establishment of an isolation hospital:

"Your Commissioners report that they have met with so much difficulty in trying to make an arrangement with either of the two hospitals and the best terms offered, appearing to entail a greater expenditure than was anticipated, besides having conditions attached thereto which might produce complications in the future. They therefore recommend the establishment of the Isolated Hospital as an independent civic institution on city property under the control of the Medical Health Officer, who should be empowered to engage nurses when required, attend upon patients, and be directly responsible for supervision in all particulars.

"The dwelling house formerly owned by Rev. E. B. Glass could be adapted to the purpose with some alterations, and if removed to the city property on the river front of River Lot 16, the required isolation could be secured and the cost of removal, fitting up, and maintenance would in that case certainly be no greater than if it were placed in the care and control of either of the hospitals, and further complications and misunderstanding avoided."

## LOCAL

—Train on time.

—Probable continued fine and dry.

—Tomorrow is a public holiday.

—B. Russell is erecting a photographic gallery at Fort Saskatchewan.

—There was a good turnout at the lacrosse practice last evening.

—The Russell Davis Stock Co. went to Calgary yesterday.

—The cost of Lacombe's proposed water works system is estimated at from \$70,000 to \$90,000.

—The Fort Saskatchewan post office is being enlarged by the erection of an addition to the building.

—A lacrosse match is called for 2 p.m. tomorrow; Strathcona vs. Edmonton.

—On account of the public meeting in the Thistle Rink on Monday evening, the 24th inst., the military band "in the trenches" will be produced in the rink on the 25th and 26th inst. instead of the 24th and 25th.

—Revillon Bros' Easter window has been very tastefully decorated representing a pipe organ with a lady playing. In the archway is swung a large bell, the tongue being illuminated by an incandescent lamp. The remainder of the window is occupied by ladies' wear.

—Meetings were held yesterday afternoon and evening at Stony Plain Centre and Spruce Grove and were addressed by Hon. Frank Oliver, J. E. Turfitt, M.P., M. McCauley, M.L.A., C. W. Cross and others. Both meetings unanimously endorsed Mr. Oliver's appointment.

—Lacombe Globe: A sad accident occurred in Spring Valley, on Thursday evening last, which resulted in the death of Wm. Southcott, a young man, about 25 years of age, who arrived here from England last summer. The facts as to how he met his untimely death are not known and probably never will be, but it is supposed that he was kicked on the head by a horse. He went to the pasture on Thursday evening to catch a horse as he was going to call on a neighbor. A short time after his departure from the house, Mr. Mill's children noticed him lying on the ground in the pasture, an investigation was made and it was discovered that his skull was so badly fractured that the brain was protruding from the fracture. There were no men at the house at the time, but neighbors were summoned as soon as possible, who carried the unfortunate man into the house, and a man was dispatched on horseback, post-haste for Dr. Sharpe. The doctor did all that could be done, but of no avail, the young man never regained consciousness and lived but 26 hours after the accident. He was buried at Haynes on Sunday the 16th inst. Mr. Southcott was a single man and had no relatives living in this country.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty, at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding the miners' certificate may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500 by 1500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein. The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres. The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for dredging to a depth of the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. If the lessee fails to comply with this condition, the lease may be forfeited.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, the boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$5.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed

abandoned, and open to occupation

and entry by a free miner.

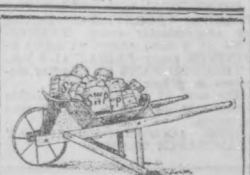

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected, or the applicant on his agent is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent. of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unoccupied land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the North-West Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.
